

The Oregon Lakes Association (OLA) and Washington State Lake Protection Association (WALPA) are tax-exempt affiliate members of the North American Lake Management Society.

Members share a common concern - the health and continued enjoyment of our lakes and reservoirs. Through their professional membership individuals and organizations with diverse interests join together to speak with one voice for better management and protection of our nations lakes. Both organizations are part of a growing international network of individuals and organizations that support the active protection of watersheds and aquatic ecosystems by promoting educational efforts.

Pacific Northwest Lakes in a Changing World

A joint conference of the Oregon Lakes Association (OLA) and the Washington Lake Protection Association (WALPA)

September 26-28, 2018

Double Tree Hotel by Hilton, Portland, OR

Conference Overview

We are expecting well over 200 participants for this multi-state conference. Pre-conference events will include Aquatic Weed School, a Limnology 101 class, and a Phytoplankton Workshop. Attendees will include students, lake associations and residents, outdoor recreationalists, scientists, researchers, educators, tribal representatives, legislators, and local, state and federal agencies. Oral and poster presentation will cover harmful algal blooms, water quality monitoring, watershed restoration, aquatic invasive species, nutrient cycling, and community involvement...just to name a handful of topics!

Supporting Student Scholarships

As part of the conference we are collecting merchandise and services to raise funds for a silent auction and raffle to support student scholarship, research, and outreach. With your donation you will be listed in the program, providing valuable exposure to a unique audience.

Benefits to Our Sponsors

If you are interested in clean, safe, drinking water; reliable community water systems; objective, scientifically-based decisions regarding aquatic resources; well-informed citizens sitting on local and regional water councils and advisory boards; and beautiful lakes for outdoor recreation - then you should take great interest in the mission of OLA and WALPA. If you think any one of these contributes to your quality of life, vote for lakes by supporting the members of OLA and WALPA with a donation to their scholarship funds.

Let us Acknowledge You!

To recognize the generosity and support of our donors, we'd like to display business information for all our donors near the items and services they donate. To help us support you, please be sure to include business cards and/or brochures that we can use to promote you and your donation and have them to us by 19 September 2018.
